### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art is replete distillate fuel composition comprising olefin/vinyl carboxylate polymers and polyimide. See for example, Dralle-Voss (US 5,766,273), Wenderoth (US 6,071,993) and Botros (US 6,143,043).

The present invention differs from the prior art in that the present invention requires two different polyimides, that are different from each other and that are also different from those of the prior art, in combination with an olefin/vinyl carboxylate polymer.

Accordingly, the invention as a whole would not have been obvious to one of ordinary skill in the art at the time of the invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
